With more than 40 years of aftermarket expertise backed by Rockwell Collins, Intertrade is uniquely positioned to serve customers around the world, every day. Our commitment to customer satisfaction and delivering value help make Intertrade a trusted industry partner, offering competitively priced, high quality new and recertified aircraft components for sale, exchange or lease.

Exceptional value

We provide you with reliable and reputable aftermarket solutions for most major OEM products that are in high demand, out of production or have factory lead time that exceeds your requirements.

The Intertrade advantage

- In-stock LRU inventory across multiple platforms
- 24-hour global AOG service and support
- Repair chain management
- Performance-based logistical support management
- Engineering solutions
- Periodic depot maintenance support
- Obsolescence management and inventory buy-backs
- Access Rockwell Collins solutions and service in more than 60 global locations
- Export/import compliance and blanket export licenses
- Customer care and OEM partnerships

Customer-focused, flexible solutions

At Intertrade, “unparalleled customer service” is more than a catchphrase. It is the philosophy that drives our employees to exceed customer expectations.

Our team has extensive experience in diligently customizing solutions to fulfill customers’ parts and service needs. We continually invest in technology and education to enhance staff expertise in a wide variety of aircraft products and services. Our mission is to reduce costs, increase parts availability and shorten lead times, maximizing value and customer satisfaction.

As a part of the Rockwell Collins team, Intertrade has substantial resources committed to providing flexible asset solutions to support a single aircraft or an entire fleet. Our inventory investment, coupled with our team of experts, enables us to meet unique operational requirements in a cost-effective and efficient manner.

At Intertrade, we do more than just supply parts – we provide aftermarket solutions, offering:

- Reliable sources of high-quality certified components
- Extensive inventory of high-usage parts and material
- Cost-effective repair chain management solutions
- Rapid turn times and shipping to operators and maintenance operations
- Performance-based logistics and global asset management
- Analytics capability/market analysis across numerous military aircraft
- AS9120/ISO 9001:2008 accredited and continuous improvement culture
- Electronic transaction status updates for customer programs
- Legacy equipment management including intermediary piece part solutions
- A solutions approach to military aviation aftermarket support
