

PREMIER PROVIDER OF NEW AND RECERTIFIED ENGINE AND AIRFRAME PARTS

Aftermarket Solutions Business and Regional

Your trusted source of components – spanning the aircraft and the globe.

Intertrade, a Collins Aerospace company, offers competitively priced, high-quality recertified engine and airframe parts for sale, exchange or lease.

With 40 years of aftermarket expertise backed by Collins Aerospace, Intertrade is uniquely positioned to serve customers around the world, every day. Our commitment to customer satisfaction and value is what has made Intertrade a respected and trusted leader in the industry.

Exceptional value

We provide you with reliable and reputable aftermarket solutions for most major OEM products that are in high demand, out of production or have factory lead times that exceed your requirements.

New surplus, overhauled, and serviceable equipment can provide cost-effective solutions to support your initial provisioning and critical spares requirements. With more than \$80 million in inventory ready for delivery, Intertrade saves you time and money.

The Intertrade advantage

- \$80 million-plus inventory in stock and ready to ship
- 24-hour AOG services
- Global service and support
- Sales personnel and inventory in North America, Europe and Asia
- Access to Collins Aerospace solutions in 27 countries and more than 60 global locations
- AS9120/ISO 9001:2008 certified

Key services

- Providing high-quality new and recertified components for sale, exchange or rental
- Asset leasing
- OEM parts distribution
- Supply programs
- Consignment redistribution
- Repair chain management

Customer focused, flexible solutions

At Intertrade, “unparalleled customer service” is more than a catch phrase. It is the philosophy that drives our employees to exceed your expectations.

Our team has extensive experience in customizing parts solutions, and works diligently to fulfill your parts and service needs. In addition, we continually invest in technology and education to enhance our staff’s expertise in a wide variety of aircraft products and services. Our mission is to reduce costs, increase parts availability and shorten lead times, maximizing value and customer satisfaction.

As part of the Collins Aerospace team, Intertrade has substantial resources committed to providing flexible asset solutions to support your aircraft. Our inventory investment coupled with our team of experts enables Intertrade the ability to meet your operational requirements in the most cost-effective and efficient manner.

At Intertrade, we do more than just supply parts – we provide aftermarket solutions with a single focus: the customer. Look to Intertrade as your premier provider of aftermarket solutions.

Extensive inventory

Intertrade maintains one of the largest used equipment inventories in the industry, with components ready for immediate delivery. We continuously review and update our comprehensive stock of avionics, airframe, and engine accessory products. Our inventory meets or exceeds the quality specifications and standards established by ATA, ASA and AS9120.

Our product coverage and expertise are applicable to a wide variety of corporate and regional aircraft. With a multimillion-dollar inventory warehoused in distribution centers worldwide, Intertrade is globally positioned to deliver the parts you need on time, every time. We specialize in offering product and service solutions for the systems listed.

Contact Intertrade today for the best value, availability and fastest turnaround on new, recertified and hard-to-find parts.
